

Berea's Guests

Thursday, Friday and Saturday of this week are great days in Berea.

President Hutchins cannot be more loved and trusted than he is already, but it is fitting that there should be a public recognition of his new office and the great tasks which he is undertaking.

So the Institution has invited the other Educational Institutions of our region, and several from far parts of the country, to send delegates to consult and rejoice with us. Our little village will be filled with these most welcome guests.

To one and all, College and town hold out glad hands of greeting. "Make yourselves at home."

We are proud to have these leaders of progress on our streets and in our homes. Some of them are men and women whose names are frequently "in print", and some are from the far outposts, where print is scarce and where fame travels, like the mails, slowly. It is these latter whom we especially wish to honor—the men and women who are doing the Lord's work on the advance picket line, ten miles from a doctor, and a hundred miles from a book store.

Be Sure to Vote

We do not undertake to advise anyone which ticket to vote, in the coming election, but we wish to register our conviction that it is the duty of every American citizen to vote. It is a high privilege to have a share in the Government of our country. And since we desire the best Government possible, it becomes the duty of the best citizens to express themselves at the polls.

There are voters who do not have the general welfare of our country at heart, but will be guided by low motives. For this reason every thoughtful, intelligent, country-loving citizen is under obligations to inform himself or herself on the issues and candidates and to weigh carefully and to vote in accordance with their best judgment.

We urge all voters, both men and women, to do their duty on November 2nd; and do not lose sight of other important officers in our interest in the presidential candidates.

—J. O. L.

Kentucky News

Barbourville, Oct. 15.—A former ace in the British air service and his mechanic escaped injury today in a 1,000-foot fall in a burning airplane at Corbin, Ky.

Senator Harding made a tour thru Kentucky last week, speaking at a number of places. Governor Coolidge was in the State this week and spoke at Richmond, Monday night.

Paducah, Oct. 13.—Decision to concentrate support of the Anchorage Orphanage by all Presbyterian churches of the State and to launch a campaign for a \$1,000,000 fund for Christian education in the State were the outstanding features of today's session of the Kentucky Presbyterian Synod.

Louisville, Oct. 16.—Mayor George Weissinger Smith will head a delegation of Louisville churchmen and ministers who are to meet Gypsy Smith when he arrives in Louisville at 2:30 o'clock this afternoon. J. H. Dickey, chairman of the Gypsy Smith Evangelistic Campaign Committee, announced last night.

The evangelist is on his way to Louisville directly from his home in Cambridge, England. He will speak at 3 o'clock tomorrow afternoon at the dedication exercises for the tabernacle on Broadway in which he is to conduct a revival the succeeding four weeks.

Washington, Oct. 15.—Only six important products of Kentucky farms were valued at more September 15 this year than they were a year ago, according to data made public today by the Department of Agriculture. These items are horses, wheat, rye, butter, eggs and chickens. Decreases of varying degrees are noted in the value of other products.

Horses averaged \$112 in value last month compared with \$105 a year ago; wheat \$2.43 a bushel compared with \$2.11; rye \$2.14 compared with \$1.78; butter 45 cents a pound, compared with 41; eggs 47 cents a dozen compared with 41; and chickens 25.1 cents a pound compared with 22.7.

Hindman, Oct. 14.—Knott county officers, headed by a Deputy United States Marshal and Sheriff Andrew Combs, exchanged seventy-five shots with moonshiners on Licking River yesterday while making the most fruitful raid ever made in Magoffin or adjoining counties.

The officers, twelve in number, were preparing to go into the hills when a party of men, on a hill opposite them, began shooting at them. The officers returned the fire with rifles and revolvers. After a few moments' fighting the attacking party fled.

Sheriffs pressed into the hills and destroyed four large, latest model stills, several hundred gallons of beer and "singlings."

Magoffin county moonshiners, it is (Continued on Page 5)

U. S. News

Greensburg, Ind., Oct. 15.—Although they are offering high wages, farmers of this county are unable to get men to cut corn. Farmers who have obtained cutters are paying 30 cents a shock. Corn cutters say that they can average from \$9 to \$10 a day.

Washington, Oct. 14.—The number of commercial vessels which had traversed the Panama Canal since its opening in 1914 had passed the 10,000 mark at the close of the fiscal year ended last June 30.

Washington, Oct. 13.—Stocks of wheat in the United States, October 1, totaled 608,000,000 bushels, the Department of Agriculture estimated today. This compares with 747,000,000 bushels in the country the same date last year.

New York, Oct. 15.—Preservation of America's forests by replanting and more rigid protection against devastating fires is contemplated in a bill to be presented to Congress in December by industries using timber resources.

Washington, Oct. 17.—Bituminous coal production has reached the 12,000,000 ton weekly total which the National Coal Association recently declared was necessary to insure against any shortage of the winter supply.

Washington, Oct. 16.—Specific details showing how, it is alleged, that the coal market was manipulated all during the year by a group of speculators in the East who, it is said, were able to tie up the available coal supply and create a shortage wherever they pleased, are in the hands of the Department of Justice, it was learned today.

Duluth, Minn., Oct. 14.—The heaviest rainstorm recorded in more than six years drenched Northern Minnesota and Northern Wisconsin yesterday and last night and is believed to have removed further menace to forest fires in the district. The Weather Bureau here announced the precipitation as 2.3 inches.

Cleveland, O., Oct. 17.—Governor James M. Cox secured a full day's rest here today in preparation for a whirlwind finish of his Presidential campaign. During the next fortnight the Democratic candidate will make his fight in the great population centers of the eastern and central states, beginning tomorrow in Syracuse, Rochester and Buffalo, New York.

St. Louis, Oct. 16.—Senator Harding is speeding homeward to Marion tonight after an eventful tour of the Middle West States of Tennessee, Kentucky, Indiana, Illinois and Missouri. In four days the Republican nominee addressed himself in forty speeches to fully 300,000 persons in (Continued on Page 5)

Inauguration of President Hutchins

Crowds are Gathering for this Notable Event at Berea College

The Inauguration of President William James Hutchins will take place tomorrow. The plans and arrangements which have been under way for so long are practically completed and all is in readiness for this great day in the history of Berea.

Large numbers of guests are arriving, and each train brings more. An air of gladness is on the whole institution and village. The trees are beautiful, the campus presents a beautiful appearance, and the welcome that is being extended to the arriving guests is making them happy.

The Inauguration exercises will be a great occasion with messages from President King, of Oberlin College; Governor Morrow, of Kentucky; President McVey, of State University, and President Emeritus Frost, of Berea College; and the inaugural address of President Hutchins.

A large number of the people of Berea and surrounding country are planning to be present, and many

alumni and former students will be here. Great interest from all parts of the country is being shown in the event.

A general reception will be given at Ladies Hall, at 8:30 on Friday night, and this will be the great opportunity to meet visiting guests. The reception is for all, and citizens of the town are cordially invited to be present.

The Pageant of the Mountains, which will be enacted by several hundred students and teachers, and which sets forth the notable events of Mountain history, will be given twice so as to permit both visitors and the people of the community to see it. Admission will be by ticket, which will be issued free and can be had on Tuesday, Wednesday and Thursday.

Provisions are being made to take visitors to the places of interest in and around Berea College.

The following is the program that has been arranged:

PROGRAM

Thursday, October 21st

- 12:00 Meeting Trains, and Luncheon.
- 2:00 Excursions to Indian Fort, Pinnacles, Cowbell Hollow, and around College Campus.
- 7:30 Pageant of the Mountains in the Tabernacle.
- 8:00 "Open House" at President's Home.

Friday, October 22nd

- 9:00 Academic Procession to the Chapel.
- 9:30 Inaugural Exercises in the College Chapel.
- Presiding Officer, Rev. William E. Barton, D.D., Oak Park, Ill., Vice President of the Board of Trustees.
- Presentation of Representatives from Other Institutions to the Chairman.
- Anthem, Hallelujah Chorus, The Harmonia Society.
- Invocation, Professor Eugene W. Lyman, D.D., Union Theological Seminary, New York City.
- Welcome to Representatives from Other Institutions, Rev. James Watt Raine, D.D.
- Response for Representatives, President Henry C. King, LL.D., Oberlin College.
- Welcome to President William James Hutchins.
- Edwin P. Morrow, Governor of Kentucky.
- Frank L. McVey, LL.D., President of the University of Kentucky.
- John L. Gay, Mayor of Berea.
- William Goodell Frost, LL.D., President Emeritus, Berea College.
- Hymn, All Hail the Power of Jesus' Name.
- Scripture, Willis D. Weatherford, Ph.D., Nashville, Tenn.
- Inaugural Prayer, Rev. Robert G. Hutchins, D.D.
- Inaugural Address, William James Hutchins, President of Berea College.

- 12:15 Luncheon.
- 1:00 Automobile Rides.
- 3:00 Pageant of the Mountains in the Tabernacle.
- 6:00 Banquet.

Addresses by:

- President Samuel Tynsdale Wilson, D.D., Maryville College, Maryville, Tenn.
- President Henry Churchill King, LL.D., Oberlin College, Oberlin, Ohio.
- President Edward Smith Parsons, Ph.D., Marietta College, Marietta, Ohio.
- President William Turnbull Holmes, Tougaloo, Miss.
- Bishop Junius M. Horner, Asheville, N. C.
- President Frank E. Jenkins, D.D., Piedmont College, Demorest, Ga.
- Mrs. Katherine S. Bowersox, M.A., Berea College.
- Rev. Howard Murray Jones, D.D., Auburndale, Wis.
- Rev. Elmer E. Gabbard, B.A., Witherspoon College, Buckhorn, Ky.
- Miss Irene Inez Houser, B.A., Berlin Heights, O.
- 8:30 General Reception (Ladies Hall).
- 10:00 Goodnight (Library Steps).

CONFERENCE ON MOUNTAIN PROBLEMS

Saturday, October 23rd

- 9:00 Addresses Before Whole Student Body in Main Chapel.
- Prof. Harry H. Clark, LL.D., University of Tennessee.
- John P. McConnell, Ph.D., President of the Southern Educational Association, East Radford, Va.
- 10:15 Addresses Before College and Academy in Main Chapel.
- President Henry C. King, LL.D., Oberlin, O.
- Miss Helen H. Dingman, Harlan, Ky.
- William Goodell Frost, LL.D., Berea, Ky.
- Addresses Before Normal School in the Upper Chapel.
- Sidney Gordon Gilbreath, President East Tennessee Normal School, Johnson City, Tenn.
- Mrs. Mary Sloop, Crossnore, N. C.
- Abner C. Jones, Superintendent Schools, Harlan County, Ky.
- Prof. Elmer A. Lyman, Michigan State Normal College.
- Rev. A. E. Smith, Cow Creek, Ky.
- Addresses Before the Vocational School in the Vocational Chapel.
- Prof. Silas C. Mason, Washington, D. C.
- Albert Shaw, Ph.D., Editor Reviews of Reviews, N. Y. City.
- Addresses Before Foundation School in Parish House.
- Rev. E. R. Wharton, Pleasant Hill, Tenn.
- Rev. A. E. Brown, D.D., Superintendent of Southern Baptist Schools, West Asheville, N. C.
- Prof. Miles E. Marsh, Principal Farm School, Asheville, N. C.

GREAT FLEETS TO TOUR THE WORLD

ARMADA IS TO IMPRESS WORLD, OFFICIALS ASSERT, IN PROPOSED TOUR OF GLOBE.

Personnel of Great Fleets Announced in Part—Pacific Division to Excel in Power.

Western Newspaper Union News Service.

Washington.—The two great fleets that the Navy Department plans to send around the world next June will be the most powerful that have been assembled under the American flag. It was stated here. Each will include approximately 110 units, selected with the greatest care from 200 or more available. As described by officials this stupendous armada is aimed to be "a spectacle that will impress the world with America's naval power."

The Atlantic fleet, which first will visit South America and South American ports, it was learned, will include the dreadnoughts Pennsylvania, Arizona, Oklahoma, Nevada, Kansas, Utah, Florida, Delaware, North Dakota, Michigan, South Carolina, Minnesota and New Hampshire. A sufficient number of battleships will be added to increase the total. The full number of first-class fighting craft will be 20. Ten cruisers, 30 destroyers and 10 auxiliaries will complete the ensemble. Impressive as is the proposed Atlantic fleet, it will be excelled in fighting power by the Pacific fleet. The most powerful unit in that force will be the new superdreadnought Tennessee, put into commission this week and now taking on torpedoes at Newport preparatory for her trip through the Panama Canal. The Tennessee measures 32,000 tons, being more than twice the size and having four times the fighting strength of the battle ship Connecticut, which headed President Theodore Roosevelt's fleet around the globe. Next will come the new superdreadnoughts Idaho and Mississippi, followed close in gun power by the New Mexico, which has the distinction of being the only dreadnought in the world driven by electric power.

Shortage of Cars Is Cause.

Charleston.—Transportation machinery in the West Virginia mining fields was decidedly out of gear as compared with the improvement in facilities observed during the period ending October 9, with the result that there was a downward trend to production. The new orders of the Interstate Commerce Commission instead of increasing the car supply had the opposite effect, at least on certain roads and in certain fields. Mines served by the Chesapeake and Ohio were handicapped to a very material extent by a paucity of cars the first signs of which were evident when only 3,800 cars were placed for all mines on the road named, that being only an 88 per cent placement, the result being the production on the road was cut down to 148,000 tons. As might have been expected under such circumstances, the car supply was decidedly off color when there was only a 66 per cent supply available.

Wrecked By Dynamite Explosion.

Morgantown, W. Va.—The tangle and the entrance to the Rockford Coal Mine of the Connellsville Basin Coal and Coke Company at Rockford, W. Va., near here, were damaged seriously by an explosion of dynamite. Twelve men at work in the mine succeeded in making their escape. Soon after the explosion the power house of the coal company was attacked. Many shots were fired.

Break-Up of Cabinet Predicted.

Washington.—Three members of President Wilson's cabinet are planning to give up their places immediately after the election, it was reported. They are Josephus Daniels, Secretary of the Navy, Attorney General Mitchell Palmer and Postmaster General A. S. Burleson. The resignations, it was stated, will be submitted, no matter what the outcome of the election.

Germans Deliver Coal.

Paris.—Germany fulfilled the terms of the Spa coal agreement for August and September by delivering to the allies 1,393,805 tons of coal, the Reparations Commission announced. Of this France received 1,577,329 tons, the remainder having gone to Italy, Belgium and Luxembourg.

Recognition To Be Sought.

Washington.—George Creel, former Chairman of the Committee on Public Information, is to return to Washington from Mexico City to work for the immediate recognition of the present Government of Mexico, according to advices from the Mexican capital, quoting an interview with Creel published in El Heraldo, the official Government organ. Creel conferred for six hours with Provisional President De la Huerta immediately after his arrival in Mexico City.

World News

The League of Nations assembled in Brussels, Belgium, has voted that an Educational Bureau be created similar to the Labor Bureau. It will be the purpose of such a bureau to further the study of the League, its principles and methods, throughout the school systems of the countries of the world. In this way the spirit of cooperation and ideals of peace will become a greater object of desire in future generations and the permanence of the League assured.

The terms of the Treaty of Versailles are gradually being carried out according to the agreements. The Island of Helgoland and the fortresses on the Rhine have been dismantled, internal disarmament in Germany is taking place; prisoners of war are being disposed of as was agreed in the Treaty; railroads, sea-ports and waterways are coming under the regulations provided; coal is being mined and delivered as agreed at the Conference in Spa; Belgium has received back a large part of her machinery and some cash indemnities. All of this creates confidence in the final restoration of peace conditions.

The consortium, or agreement of the financiers of England, France, Japan and the United States, to make large advances of money to China has finally been signed. It comes just at a time when it is needed to avert a financial disaster, as the government at Peking is desperately pressed for money. The bankers of the United States have delayed long because the government was not willing to guarantee the loans. By such means a government has often been much embarrassed and has been led to interfere in the affairs of other countries.

Diplomatic relations between France and Germany have been resumed. The German ambassador was received with respect and expressions of confidence for the peaceful relations of the two nations in the future. It is certainly true, however, that vigilance will be exercised to see that no advantage is taken on either side. Cordiality in the relations between these countries can hardly be expected for a considerable time.

The condition of King Alexander of Greece is reported to be more serious than was at first believed. The case is a peculiar one, as the infection from which he suffers was the result of a monkey's bite. The King is very popular, as he represents the more liberal branch of his family and has identified himself with the people of Greece by marriage with a Grecian lady of high station. His father was obliged to leave the country because he sympathized with Germany.

England seems to be face to face with a serious strike among the coal miners. Such a strike would work disaster in many countries beside England herself. Norway and Sweden, Belgium and France to some extent look to England for coal. Without this the recovering manufactures would be retarded and the work of reconstruction delayed. The unions in England are strong and have received more recognition than in the United States.

The Italian working men have returned the factories which they took over to their owners. They did so, however, on agreement that they should have a part in the technical and financial management for the future. No damage to the properties was discovered by the owners. Agricultural societies of peasants are now trying the same plan and are taking possession of the large estates. In the Island of Sicily there are still many old feudal holdings, which are large, and in which the labor conditions are not progressive.

At Punta Arenas, in southern Chile, is to be celebrated this year the 400th anniversary of the discovery of the Straits of Magellan in 1520. It was this voyage that made it certain that America was not a part of Asia. In the matter of length, hardships and significance, the voyage of Magellan surpasses that of Columbus. The priority of the discovery of America, however, has given a more honored place to Columbus than to Magellan.

There are only 6,984 Japanese in the Philippines. There are about 100,000 Japanese in California alone, or 15 times as many as in the entire Philippine archipelago.
